Jackery Explorer 5000 Plus offers powerful, eco-friendly home backup with 5-60kWh capacity and dual voltage output (120V/240V). It supports various appliances during outages with 12 output ports, 7.2-14.4kW power, and a 0ms UPS switch for seamless operation of essential devices like fridges, computers, home servers, routers, and ventilators.

If you have limited space, a 5000 watt solar generator might not be the best fit for you. A 5000 watt solar generator will require around 500-600 square feet of space for the solar panels and at least 80 cubic feet of space for the battery storage. This is because it typically comes with 16-20 solar panels, each needing 25-30 square feet of space.

How much do 5000 watts of solar panels cost? 5000 watts of solar panel will cost around \$5000.00. This price may change depending on the brand, size, and wattage of the solar panel. When shopping for a solar panel, it is important to keep in mind that the wattage is not the only factor that determines the cost of a panel. You also need to
