Regular Price 28,900 Rs. You Save 2 % (700 Rs.) In stock. Only 8 left. SKU.

Solar batteries are a smart investment for energy storage. Without a battery bank, you won't be able to store energy generated by your system for later use. If you're tied to the grid, no battery means no backup power when the utility grid suffers an outage. If you live off-grid, your system simply won't work at all.

Solar batteries are an essential component of any solar energy system, providing a way to store energy generated by solar panels for use when the sun isn't shining. In Pakistan, the demand for solar batteries is growing as more people and businesses turn to renewable energy solutions to combat rising electricity costs and frequent power outages.
