A lithium-ion battery or Li-ion battery (abbreviated as LIB) is a type of rechargeable battery. Lithium-ion batteries are commonly used for portable electronics and electric vehicles. The batteries have a high energy density, no memory effect (other than LFP cells), and low self-discharge. Discover our extensive range of Lithium Ion Battery Packs, designed to provide ???

Q: I brought a 18650 battery holder with PCB. After I inserted the battery to the holder, it doesn't give any voltage. The battery are all good since the voltage is 3.6-3.7V. A: Please connect the charger to the battery holder after you insert the 18650 into the holder, this will active the PCB. -----
