The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price compared to off-peak rates. In such a scenario, a solar battery storage system can come in handy for using electricity without having to pay such a high price.

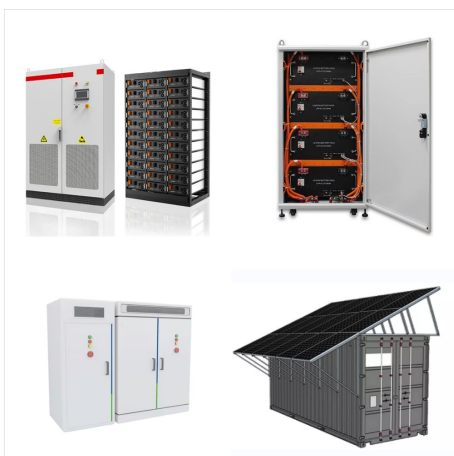

BATTERY IN SOLAR PANEL LEBANON

Company Overview. ZTC started a humble journey in 2013. Through our relationship with international companies and our technical partners, we became distributors of Solar Systems and specialists in the design and supply of photovoltaic power sources and back-up systems for a wide range of applications.
