

What is a home backup battery?

A home backup battery provides a safety net when you need to protect your family against a power loss. It delivers clean power, unlike a home standby generator that relies on fossil fuels. With battery backup solutions, you get energy security and peace of mind.

How many batteries do you sell a year in Serbia?

We sell around 100.000 batteries annually in Serbia and the Region. Read more... Check out our on-line web shop, with a great offer from our huge range of batteries : Exide, Varta, Rombat, Power-Max, Victron Energy, NBA, Long, LP...etc.

How do I choose the best battery backup system?

The choice of the best type depends on your specific needs, budget, and whether you want a portable or permanent whole-home battery backup system. Some systems are designed for smaller-scale, short-term backup, while others provide comprehensive, long-term power continuity for your entire home.

How many kWh does a battery backup system store?

Comparatively, partial-home battery backup systems usually store around 10 to 15 kWh. Given that power outages are infrequent in most parts of the country, a partial-home battery backup system is generally all you'll need. But, if your utility isn't always reliable for power, whole-home battery backup may be the way to go.

What is a standby generator & a battery backup system?

Operation: These setups combine a standby generator with a battery backup system. The generator can provide comprehensive, long-term power continuity for the entire house and function like a whole-house UPS. The battery serves as a buffer to ensure uninterrupted power during the transition between grid power loss and generator activation.

What are the best home power battery backup solutions for 2024?
