

its just an ideas. again like i said be quiet! system power 9 is fine unit, i am guessing that 3 year warranty is due to low cost sleeve bearing fan which can die quite quickly, even before 3 year warranty period, but as once some redditor said here, probably more than 3 years but expecting to last 5 years is quite a challenge. this is my opinion.

The usual be quiet! quality workmanship is paired with a three-year warranty that completes each System Power 9 CM package.
