BE QUIET SYSTEM POWER U9 700W

Bequiet is a company headquartered in germany, though their units are found all over the place, including the system power 9. From what I can tell, the differences between all u9 units is just the primary cap changing brands and capacity, same with the S9 lineup. The system power 9 and system power u9 are actually different units.

To help satisfy system builder aesthetics, black power cables add a high-quality look, while quality workmanship is paired with a three-year warranty that complete each System Power U9 package. System Power U9 is available at an MSRP of \$44.90 (400W), \$54.90 (500W), \$59.90 (600W) and \$74.90 (700W).

BE QUIET SYSTEM POWER U9 700W

Is the be quiet! 700W SYSTEM POWER U9 reliable? Build Help I have the impression that be quiet is a good and reliable brand but I think this is a budget PSU and wanted to know if it's any good. Don't want to buy it just for the brand because of what happened with seasonic. I also had in mind buying an xpg pylon 650W or a Bitfenix formula bronze

BE QUIET SYSTEM POWER U9 700W

System Power U9 600W-700W It actually gets me a bit over budget at about the equivalent of USD1100, with case fans and CPU air cooler, but I can save up a bit more for that. Also, if there is ever a point where RTX 3060 or RTX 3060ti become in stock and reasonably priced, I will get that in place of the RX 5700 XT, it's pretty much just what I
