If you pay for your system with cash, you'll save about \$91,297 over 25 years (the warranty term of most solar panels) on electricity costs with a 5 kW system in Altadena, CA. We generate this estimate based on real solar quote data from our Marketplace. It considers your system's cost, the federal tax credit, and inflation rates.

Altadena Energy & Solar is a local owner-operated solar energy and energy storage system developer. We are a licensed, bonded and insured contractor (CA License C46 #979146). We design, engineer, install and service solar and energy storage systems in the greater Los Angeles area, with the majority of our projects in the Pasadena/Altadena area.

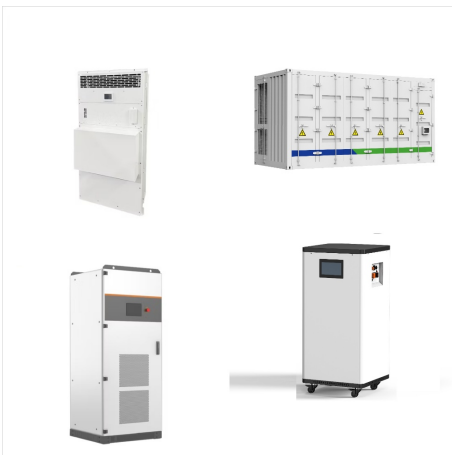

Next Steps for Installing Solar in Altadena. The nationwide use of solar energy has increased enormously in the past 15 years, in part thanks to the growth in the number of solar incentives. You might receive these incentives from the federal government, the California government or your local utility company.

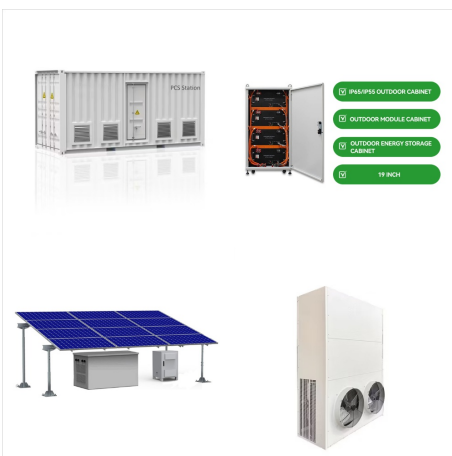

BECKETT SOLAR ENERGY ALTADENA CALIFORNIA

Altadena Energy & Solar was founded by Hans Rosenberger out of a belief that good engineering and financing are important for the development of environmentally friendly solar energy systems and buildings. There is a strong demand for energy savings and "green power," but too few practitioners who understand both engineering and finance.

The real estate work led to the founding of Altadena Energy & Solar, and its partner firm, RSF Solar, and a focus on technically sophisticated solar and energy efficiency solutions for residential and commercial clients.
