The MBS400 Series of AC-DC power supplies
provides up to 400 W of regulated output power
through wide input voltage range 90 VAC to 264 VAC in
single outputs of 12, 24, 36 or 48 VDC. The
MBS400 Series comes in a 83.0 x 212.0 x 42.0 mm
form factor, offering 12 and 5 VSB standby outputs
and a full set of protection features.

DC-DC power supplies of Bel Power Solutions
offers a comprehensive range of high power density
board-level DC-DC converters with industry
standard brick footprints ranging from 1/16 to 1/2
analog POL converters and feature-rich digital
power solutions.

DIN Rail AC-DC power supplies of Bel Power Solutions are rugged convection-cooled converters that are ideal for demanding applications from instrumentation to process control with single and dual output DIN-Rail mount options plus converter and battery charger configurations.

Bel Power Solutions & Protection offers world-class AC-DC and DC-DC power conversion products, value-add power solutions, complete box-build solutions and contract manufacturing services, along with a complete portfolio of electronic ???

Bel Power Solutions MAP55 Series of power supplies provides reliable, tightly regulated DC power for industrial systems. MAP55 series complies with EMC product standard EN 61204-3. All RoHS compliant units bear the CE Mark. The MAP55 utilizes a thermally efficient U-channel chassis design. Other mechanical design innovations include metric and

The Bel Power Solutions 700DNG40-24-8 is a 2nd generation 4 kW liquid cooled DC-DC converter that creates DC voltages in hybrid and electric vehicles suitable to power low voltage accessories.

700DNG40-24-8 converter operates at input voltages from 450 to 900 VDC and delivers up to 4000 W of output power. Features include very high efficiency

You can view the stock availability, pricing, and product specifications for the Bel Power Solutions BEL POWER SOLUTIONS INC Switching Regulator, 2960V Input, 24V Output, 6A DC DC Converters PSB246-2IR on Kynix and place an order online. 0 item(s) 00852-81928838 | [email

The Bel Power Solutions 350DNG40-12-8 is a 2nd generation 4 kW liquid cooled DC-DC converter that creates DC voltages in hybrid and electric vehicles suitable to power low voltage accessories.

350DNG40-12-8 converter operates at input voltages from 240 to 450 VDC and delivers up to 4000 W of output power. Features include very high efficiency

The PFC500 products of the PerFormanCe Power Series combine high performance midrange power with high power density (4.4 watts/in³) and high reliability. Wide input voltage range of 85 - 264 output power up to 500W and compact 9 x 5 x 2.5 Inch footprint.

The CPA and CPD Series are highly reliable power supplies for CompactPCI systems, which are increasingly used in communications, industrial, military, aerospace, and other applications. These power supplies offer high power density in plug-in modules that meet the requirements of the PICMG power interface specification for CompactPCI systems.

The Bel Power Solutions BCV200-350-8 is a 20 kW combo unit consisting of three subsystems: 15 kW bidirectional inverter-charger, 4 kW 12 V down converter, 1 kW 24 V down converter. This all-in-one eMobility unit combines three products, creating a convenient and compact solution that helps reduce cabling. The inverter/charger powers up to 15 kW

Bel Power Solutions and Protection has released the SPSPFF3 System, a power modules, shelf, controller and power distribution unit (PDU). The company is part of the Bel group and a premier global manufacturer of power management devices. These products are designed for systems and applications

GreenPHY Powerline modules offer lower data rate transmission over greater distances. The module is supplied with the coupling circuit built in making it an ideal solution to integrate into your design with ease. Available in Horizontal ???

GreenPHY Powerline modules offer lower data rate transmission over greater distances. The module is supplied with the coupling circuit built in making it an ideal solution to integrate into your design with ease. Available in Horizontal SPI UART & UART-AT packages.

The Bel Power Solutions FXP/FXC 6000/7000 Series of power supplies offers up to 7000 W of power at 48 V and is a powerful resource for any company seeking higher power levels to automatic test equipment, telecom, data communications and other distributed power designs. This product has a three-phase, three-wire input with selectable low and

M Series are Melcher??? AC-DC/DC-DC cassette style converters which provides up to 50W output power and extremely wide input voltage range from 8 to 385 VDC and 85 to 264 VAC 47 to 440 Hz. M Series - 50W, AC-DC/DC-DC Melcher??? Cassette | Bel Fuse
