Dubai is a global leader in the adoption of solar energy, with ambitious plans to increase its solar capacity to 5,000 megawatts by 2030. This growth is being driven by a number of factors, including government support, favorable climate conditions, and a growing awareness of the environmental and economic benefits of solar energy.

GAC's commitment to align with Dubai 2030 vision of having 25% of Dubai's power generation sourced from renewable energy is at the core of Total Solar's strategy. These two combined projects of 6 MW will have an environmental impact of 112,800,000 kgs of CO2 emissions avoided which marks the beginning of our green journey with GAC."
