

What is Nordic Solar's Solar Park?

The solar park has been built using Nordic Solar's proprietary, patented design for bifacial solar panels which produce energy from both the front and back. In addition, a number of initiatives to promote biodiversity in the area have been included in the development of the solar park.

Who is Bermuda Engineering Company Limited?

Bermuda Engineering Company Limited was founded in 1935 by Gordon Hamilton Burland, a Bermudian renewable energy pioneer and engineer. Back then, he built the first clean energy microgrid in Bermuda and demonstrated bold energy leadership for his time. In 2010 the company was reinvigorated and has been operating as BE Solar since.

Who is Helios Nordic Energy AB?

About Helios Nordic Energy AB Helios Nordic Energy AB is one of the leading PV solar developers in Sweden, and the Nordics, with a project pipeline exceeding 4,3 GW. Helios has in the past year concluded five transactions with reputable investors.

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

How did Nordic solar perform in the quarter?

During the quarter, Nordic Solar experienced good progress across the portfolio of projects, introducing new greenfield projects in Sweden, maturing the development portfolio, completing a 100 MWp construction in Lithuania and divesting a solar park in Portugal.

Power up your Bermudian paradise with BE Solar: Bermuda's leading energy solutions provider, empowers you to embrace clean, sustainable power. We expertly design, sell, and install premium solar panels, reliable batteries, and cutting-edge EV ???

Carnegie acted as exclusive financial adviser to Nordic Solar A/S ("Nordic Solar") in the capital raise of DKK 2.2 billion (EUR 300 million) in flexible capital from EIG Partners ("EIG"). Nordic Solar will use the proceeds to finance the construction of its pipeline of solar park projects in Europe (EUR 200 million) and to acquire new

Two Swedish landmark large scale PV projects developed by Helios Nordic Energy AB reach RtB, with a combined electricity production capacity of 113 GWh, are handed over to Danish solar energy company Nordic Solar A/S

We are a Danish solar energy company headquartered in Copenhagen. We develop, construct, and operate utility-scale solar parks across Europe on our mission to make everyone benefit from solar energy. As we pursue this mission, our vision is to emerge as one of the leading solar energy companies in the Nordics.

Nordic Solar A/S announced today the start of construction works on its first battery energy storage system (BESS), a 10-MWh project in Denmark, as part of its strategy to integrate storage capacity into its solar portfolio.

Committed to making everyone benefit from solar energy, we aim to be one of the leading solar energy companies in the Nordics, contributing to the transition away from fossil fuels. Explore our strategic focus, achievements, and opportunities to join ???

Discover Nordic Solar's commitment to clean energy solutions. From developing and constructing utility-scale solar parks to divesting operational projects, we manage the entire value chain. Explore our strategic focus on eg. greenfield projects, contributing to the energy transition. Join us on a journey towards a more sustainable future.
