

Do you need a backup power generator?

Proper home maintenance is all about planning and preparation. Given the uptick in extreme weather, that may mean investing in a backup power generator to keep your home running in the event of disaster or an extended power outage.

Should you buy a home generator if you have a power outage?

A power outage may leave you literally caught in the dark, but you can still be prepared by buying a home generator now. Here are the best home generators.

What can a home generator do during a power outage?

During a power outage, a home generator can keep the lights on, the HVAC running, and the appliances powered, but there are a lot of options out there, from whole-house to quiet inverter models. Because we're big on helping our readers navigate the array of products that make life easier, our team tackled the task of testing home generators.

What is a backup generator?

Backup generators, as their name suggests, provide backup energy to your home appliances and devices in case of a power outage.

What generators do you need for a power outage?

A one-time roofer and a serial remodeler, Dan can often be found keeping house at his restored Brooklyn brownstone, where he lives with his wife and kids. During a power outage, a reliable generator from a leading brand like Generac, Kohler and Craftsman will keep your home running and loved ones safe.

Can a backup generator detect a power outage?

Backup generators are not able to automatically detect a power outage in the way that their standby counterparts can. Instead, when there is an outage, the generator's engine must be manually started, meaning you must be on-site to get it running.

BEST BACKUP POWER GENERATOR DURING POWER OUTAGES
