

Is xs power D3400 a good battery?

The XS Power D3400 High Output Battery is especially good for car audio systems because it has the amount of raw power and has an M6 terminal bolt so you can mount it directly and then drive it straight. Just make sure you're getting the right Mac model because there's also a less powerful, 1000 amp version.

Are XS power batteries good for automotive audio systems?

XS Power batteries use the highest concentration of chemicals in AGM BCI group batteries which make them the battery of choice for automotive audio systems. The XS Power D3400 High Output Battery survives up to its high output name with an outstanding 1150 high-performance cranking amps.

Which is better XS power D3400 or yellow top?

If compared in terms of features, the Yellow Top XS Power will undoubtedly be a bit ahead of the D3400. It comes with all the great features but also does not require maintenance. On the other hand, in case of using XS Power D3400, you must maintain. Therefore, considering all aspects, it can be said that it is best to choose Yellow Top.

Why should you buy XS power deep cycle batteries?

Years of experience making people happy. Give your vehicle the necessary juice to perform at its best. XS Power deep cycle batteries can act as replacements for your car's standard battery, or you can use them as auxiliaries to power your high-performance sound system and hydraulics reliably.

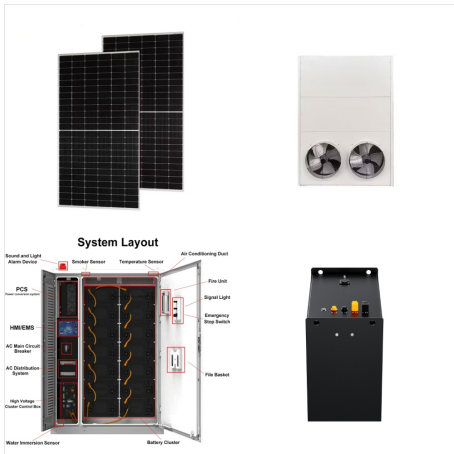

Are XS power batteries spill-proof?

The battery is spill-proof which allows mounting freedom without the worry of acid or electrolyte spillage. XS Power batteries use the highest concentration of chemicals in AGM BCI group batteries which make them the battery of choice for automotive audio systems.

Are XSP batteries good for car audio?

When we put a label on a product you can count on it. Using the highest energy density chemistry known in AGM batteries, XSP is now the battery of choice for competition car audio. With large 12V batteries as well as the 16V models, more and more records are being smashed every day with XS Power Batteries on board.
