Origin Energy currently offers the best solar feed-in tariffs (FiTs) in Victoria at the time of publication, with eligible customers receiving 20 cents per kilowatt hour (c/kWh) of energy exported to the grid. Following this is AGL with 15c/kWh and EnergyAustralia with 12c/kWh.

What is the Feed-in energy tariff? The Feed-in Tariff (FiT) is a government scheme that pays homeowners and businesses to generate and export to the grid their own electricity, from renewable or low-carbon sources. It was first introduced in 2010 to encourage the use of renewable energy and reduce the UK's dependence on fossil fuels.

A Solar Feed-in Tariff (FiT) is a financial incentive that allows solar energy system owners to receive payments for the excess electricity they generate and feed back into the grid. This system encourages the use of renewable energy by providing a guaranteed payment rate for a specific period, typically 10 to 20 years.

EDF Energy is a Mandatory FIT Licensee. The Feed-in Tariff scheme is now closed for all new applicants. However, if you have moved into a property that has renewable technology and was previously accredited for the Feed-in Tariff scheme, please complete the application below choosing the option "Change of Ownership".
