San Antonio is one of the best cities in Texas to go solar. Explore top solar companies, incentives and tips on choosing the right solar installer for you.

How many solar companies are there in San Antonio?

With 640 solar companies in the area and the median San Antonio household size as 1,983 square feet, you should get a basic idea of how many options are at your disposal and what size solar system you'll need for your home. Below are a handful of other important aspects of choosing a solar installation company in the San Antonio metro area.

Which San Antonio solar installer should you choose?

San Antonio residents contemplating solar have plenty of installers to choose from. Among our picks for the best options is Freedom Solar, both of which have extensive industry experience. Freedom Solar may be the right pick for off-grid systems, or if upfront costs are a concern, you may find Sunrun's lease options appealing.

How much does solar cost in San Antonio TX?

The average price per watt of solar power in San Antonio, TX is \$2.19/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$20,087 for a 13.08 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

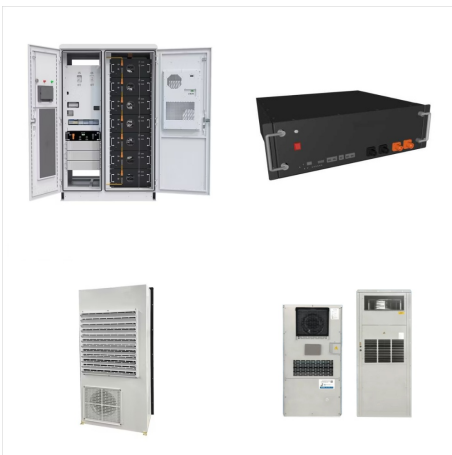

Are solar panels a good investment in San Antonio?

Electricity consumption: The average household in San Antonio uses a lot of energy, and consequently may see more savings on electricity bills than other places. Thanks to the cost of solar panels being lower than before as well as several solar incentives, they are a sound investment for most homeowners.
