BHUTAN INVERTER FOR HOME PRICE

The price of the inverter. It is your budget that influences the inverter model you purchase. Features, technology, and size affect the price of a photovoltaic inverter. For a good model, you will pay from PHP 36,318 upwards. Prices can be even lower than that, but PV inverters' performance, durability, and features will be more limited.

AIMS Power inverters, inverter chargers, and solar inverter chargers are here to give power to the people in Bhutan. AIMS Power also carries 30, 60, 120 and 230 watt solar panels, deep-cycle batteries, cables, fuses, solar charge controllers (MPPT and PWM), and anything needed to create an off-grid, mobile or backup power system.

This will give you a benchmark to compare your own inverter cost to. So, for example, an inverter for a 10 kW installation should cost around \$1,800. For a 17 kW installation, the inverter should cost around \$3,060. Keep in mind this is an average cost. American-made inverters, micro-inverters, and high-efficiency inverters all come at a
