The system requirements for Cyberpunk 2077 are actually a little lower than Assassin's Creed Valhalla which was released a little over a week ago. This is a huge jump in GPU power, but with what we''ve seen from the E3 videos/trailers, it is plausible that players will need an epic computer to enjoy Cyberpunk 2077.

Bid for power was a total mod remake of Quake 3, and was originally designed to use Dragon Ball Z characters. the mod team ran into licensing problems as the nearly completed mod met with success and some notoriety. As a result, the mod team was forced to repopulate the game with original characters without changing game play much.
