

Who owns Blue Raven solar?

It was acquired in 2021 by SunPower, one of the oldest solar companies in the country. "I would say we operate not entirely autonomously, but we are still very much Blue Raven Solar," Mitch Hoffman, the company's senior marketing manager, told CNET.

Why did SunPower acquire Blue Raven?

"SunPower and Blue Raven share a vision of powering the world with affordable, resilient, sustainable energy. This acquisition will enable us to bring the most powerful and efficient solar technology available to a new set of homeowners and accelerate our growth strategy." The acquisition was made for cash consideration of up to \$165 million.

Why was Blue Raven acquired?

There's a lot of reasons why the acquisition of Blue Raven makes sense, but I'll start with this: more than 100 million homes in the United States could reduce their electricity bills by switching to solar, yet less than four percent of homes have solar on their roofs today.
