After major months of public struggles and structural changes, SunPower, one of the country's largest home solar providers, filed for bankruptcy. Solar, acting as a "stalking horse buyer," was awarded the bid for a portion of SunPower's assets, including Blue Raven Solar, SunPower's New Homes business, and a portion of SunPower's

I've scoured reddit about Blue Raven solar and most if not all posts are 3-4 years ago. I've had a consultation already, and I'm having the technician come monday to show me the plans. So far it all sounds good. The goal is to balance the power produced to the exact power used, and that makes sense. No sense building up tons of extra

The Federal Investment Tax Credit (ITC) encourages the use of renewable energy by providing a tax credit to owners of an energy property that meets established performance and quality standards. A tax credit is a dollar-for-dollar reduction in the amount of income tax you would otherwise owe. While most customers who qualify for BluePower and BluePower Plus+ have a ???

Blue Raven Solar, from what I have seen has been pretty clear and their system does seem better. When has Cash price ever been the same as the financed price though? utility bill 250 months 1-18Cost of system 250 months 1-18 cost of system months 19 and on - 250utility bill months 19 and on - 300+ you will end up saving money, hell you could
