

Who is Bluesun solar group?

Bluesun Solar Group is an international high-tech and growing group company, specializing in R&D, which manufactures solar cells, modules, and solar power systems. Advantages What are the advantages of energy storage? 1. What energy storage provides: emergency backup power.

What type of batteries does Bluesun provide?

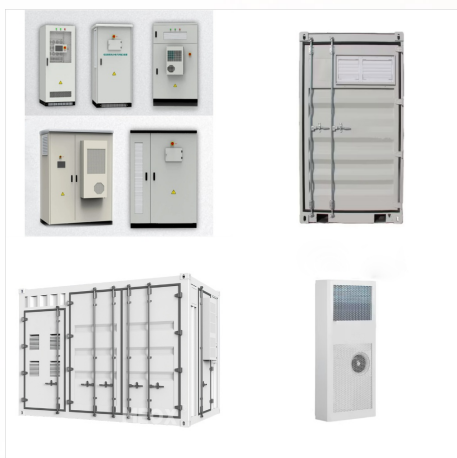

Once the Bluesun kit is delivered, it is ready to be installed. Bluesun can provide 12V 24V 48V 51.2V and high voltage lithium ion batteries. Mainly used in solar energy storage systems, energy (wind) household systems, off-grid /distributed power station, solar building systems.

What services does Bluesun offer?

Bluesun has a professional technical team that can provide complete system design, including residential systems, industrial and commercial energy storage systems and large-scale power stations.

What is Bluesun outdoor energy?

Bluesun Outdoor Energy is currently committed to the research and development of outdoor photovoltaic products, adopting advanced thin film production technology and CIGS technology, leading the photovoltaic industry to thin film and flexibility.

Bluesun Solar Co., Ltd. founded in 2013, is one of the solar power solution leading companies in China, with an office area of 3000 square meters and a peripheral warehouse area of 2000 square meters.
