

BLUETTI's balcony solar system includes solar panels, microinverters, and battery storage. It can deliver 800W of power to the grid, meeting subsidy requirements, while also offering optional and expandable storage capacity. This allows users to store excess solar energy in batteries, making it available anytime without waste.

Its EP600 system is a safe, reliable and high-performance product that can store and release solar energy, provide off-grid power and interface with the grid. EP600 can optimize energy consumption patterns and enable homeowners to achieve ???

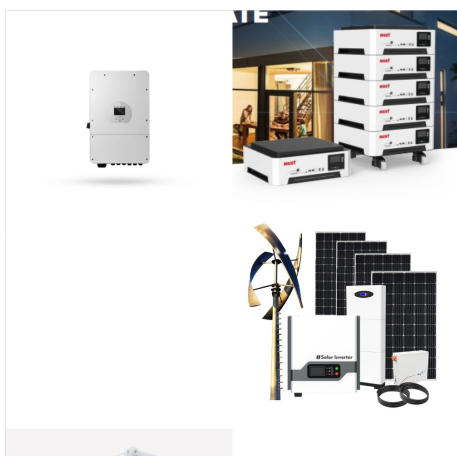

Flexibility always comes as the first priority of BLUETTI's innovations. Ever since the launch of AC300+B300 system in 2021, BLUETTI has started to make their premium solar power systems modular, bringing extraordinary versatility and compatibility. The latest EP600 and B500 inherit this fine tradition.

Using the split phase adapter and a transfer switch would allow for 240v backup to the home. Then to make use of the Ioniq battery when needed, V2L adapter from that to top up the Bluetti batteries. Could also add solar down the line, hopefully this setup would require little to no modification for that.

Job Description Based in Bluetti Nairobi office; Developing new distribution channels for Bluetti home solar all-in-one products in Kenya? 1/4 ? oping more installers in all regions of Kenya for Bluetti home solar all-in-one systems; Participating in Bluetti's renewable energy exhibitions and marketing activities in all regions of Kenya, constantly develop new strategic customers; Reply ???
