

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

Does Bonaire have a regulated electricity sector?

In recent years, the Ministry of Economic Affairs in the Netherlands has been active in reforming the regulation of the electricity sector in Bonaire, both in terms of utility regulation and expanding generator access.¹³

Does Bonaire have a utility company?

The utility company for Bonaire is Water-En Energiebedrijf Bonaire N.V. (WEB), which supplies both water and electricity to the island. WEB is a government-owned entity and is strictly a distribution utility, owning no generation of its own.

How much does energy cost in Bonaire?

This profile provides a snapshot of the energy landscape of Bonaire, a special municipality of the Kingdom of the Netherlands located off the coast of Venezuela. Bonaire's utility rates are approximately \$0.35 per kilowatt-hour (kWh), above the Caribbean regional average of \$0.33/kWh.

Could biodiesel save Bonaire from global oil price fluctuations?

However, its plans to replace these fuels with biodiesel have the potential to insulate it from the global oil price fluctuations that directly impact the cost of electricity. The utility company for Bonaire is Water-En Energiebedrijf Bonaire N.V. (WEB), which supplies both water and electricity to the island.

Who regulates Bonaire?

As a special municipality of the Kingdom of the Netherlands, Bonaire is largely regulated by ministries of the Netherlands' national government.

BONAIRE SINT EUSTATIUS AND SABA YOBOLIFE SOLAR GENERATOR

The government is making 33.6 million euros available for an accelerated switch to sustainable electricity in Bonaire, St. Eustatius and Saba. This means that within 3 years, an average of about 80 percent of the electricity on the three ???

THE BOTTOM ??? 6288 Solar panels provide Saba with electricity. On sunny days they produce 2.1 megawatts: 40 percent of the island's needs. On such days the diesel generator is turned off from eight in the morning till five thirty in the afternoon.

The solar park in Bonaire will consist of an impressive 10.816 solar panels that will be generating about 10 megawatts of electricity to the entire island. Estimates state that around 5.000 households will be powered by the new project.

BONAIRE SINT EUSTATIUS AND SABA YOBOLIFE SOLAR GENERATOR

Bonaire, Sint-Eustatius and Saba are in the selected group of 30 islands that have been chosen by the European Union (EU) to take part in the "30 for 2030" project for energy transition. The islands, which were selected after an extensive selection process, can count on intensive support from the EU to realize their ambition to have fully
