

How far is Bouvet Island from Antarctica?

Bouvet Island is one of the most remote islands in the world. The closest land is Queen Maud Land of Antarctica, which is 1,700 km (1,100 mi) to the south, and Gough Island, 1,845 km (1,146 mi) to the north.

When will a ship land on Bouvet Island?

;-) If everything goes fine, they should get nearby Bouvet Island by end of March 26 or at the morning of March 27. Then the ship will go into standby mode and the Team will download the latest weather reports to estimate the best timeframe for suitable conditions for a landing attempt.

Where is Bouvet Island?

Welcome to Bouvet Island, a small volcanic rock in the South Atlantic. The Sub-Antarctic territory is thousands of kilometres from civilisation, and its high cliffs and ice-cap mean very few people have ever put a foot on it. The weather doesn't help. Sticking out of the ocean the way it does means conditions can deteriorate very fast.

How did Bouvet Island become a dependency?

The expedition carried out aerial photography of the island and was the first Antarctic expedition to use aircraft. : 64 The Dependency Act, passed by the Parliament of Norway on 27 February 1930, established Bouvet Island as a Norwegian dependency, along with Peter I Island and Queen Maud Land.

What time does Bouvet Island 2023 DXpedition go QRT?

As per Team Co-Leader Ken LA7GIA. The 3Y0J Bouvet Island 2023 DXpedition is QRT as of 14 FEB 2023 03:00 UTC. "3Y0J will go QRT Monday at 12:00 to 15:00 UTC when we run out of fuel. We will start taking down the camp on Monday and transport the last equipment on Tuesday. There is another 60 knot storm coming this weekend.

Is 3Y0 Bouvet the Mount Everest of amateur radio?

I consider 3Y0 Bouvet Island to be the Mount Everest of Amateur Radio. Bouvet is the most isolated island on Planet Earth. It's completely uninhabited. The seas to get there are known to be treacherous to all who attempt to navigate them. The weather conditions can be abominable. Two recent attempts to activate this DXCC Entity have failed.

Bouvet Island is a great place to observe penguins and fur seals, particularly chinstrap penguins and macaroni penguins. The macaroni penguin is one of the most common penguin species globally, easily identifiable by its distinctive orange plumes. These migratory penguins primarily feed on crustaceans and prefer breeding in rocky slope areas.

Press Release #8 from 3Y0J team ??? 08/02/2022
 3Y0J DXpedition to Bouvet Island, January 2023.
