A Naperville home gets an airy makeover on a tight timeline. Last year, Elizabeth Prignano of Glow Interior Design in Wheaton was approached by a Naperville couple in need of a complete remodel of their new house. "They found this home of their dreams on a wonderful lot backing up to a beautiful wooded area," Prignano says.

The study estimates a \$9 billion investment in renewable capacity would be needed to reach this goal. A recent study by the National Renewable Energy Laboratory found that solar energy reduces respiratory and cardio health issues, among other health benefits. It even has been shown to reduce the number of lost work days related to health issues.
