We can take existing assets and integrate them into the microgrid. We can also help size new installation for optimum energy production. Our expertise includes: Renewable Energy, Wind and Solar integrations. Energy Storage; Back-Up Power; Nidec is the no. 1 manufacturer of electric (industrial) generators for Gensets working with the top brands.

By providing modular power in 10MW kits using gensets, microgrid developers benefit from fast-to-deploy primary and back-up power which accelerates their protect return on value. Genset-based microgrids fill the gap between traditional remote turbine power and local power generation for specific applications.
