

In the SMA Residential Solution, the Sunny Boy Storage temporarily stores electricity from the PV system in a battery. Combined with the Sunny Home Manager 2.0, energy flows in the home can be managed intelligently and electricity costs further reduced. Solar power can ???

The new Sunny Boy Storage grid-tied battery inverter, the keystone of the SMA Energy System, is easy to connect to multiple high voltage lithium ion batteries. It includes the Backup Lite function and all communications options of the Sunny Boy line.

Sunny Island The battery capacity for an SMA Flexible Storage System with Sunny Island can be freely selected within a wide range (see: Which Battery Types are Compatible with Sunny Island Inverters?) It is important to observe the capacity: Lead-acid batteries with a capacity of 100 Ah to 10000 Ah can be connected.

With the Sunny Boy Storage, customers benefit from markedly reduced system and installation costs and flexible applications. Thanks to AC coupling, the battery inverter can be installed or expanded in any location, at any time, regardless ???
