

What is a brushless motor?

Designed for 2s LiPo power, the brushless motor offers exceptional torque and low speed control to climb over any obstacle. In the open, the motor delivers high-rpm performance for dramatically improved speed and wheelie-popping power. A black high gloss can with laser etching gives the motor a striking appearance.

What is the BL-2s brushless power system?

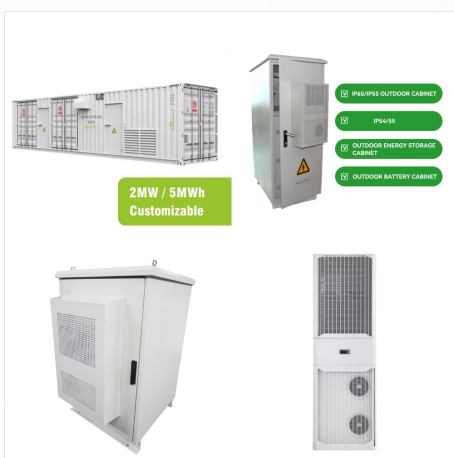

The BL-2s brushless power system delivers more speed, faster acceleration, and virtually maintenance-free operation at an affordable price. Drivers experience smooth, effortless power with added punch for tire-shredding burnouts and blazing fast speed.

What is a velineon brushless system?

The Velineon Brushless System is the ultimate upgrade to any 1/10 Traxxas vehicle currently powered by the Titan 12T or Stinger 20T motor. The Velineon power system is a direct fit for 1/10 scale Traxxas Bandit, Rustler, Stampede 2WD, Stampede 4x4, Slash 2WD, Slash 4x4, and 1/10 Rally vehicles.

What is a BL2s brushless electronic speed control system?

The BL-2s brushless electronic speed control system from Traxxas is optimized for both 7-cell NiMH and 2s LiPo batteries, ensuring you get consistent performance every time. Traxxas hasn't skimped on the features for the BL-2s speed control:

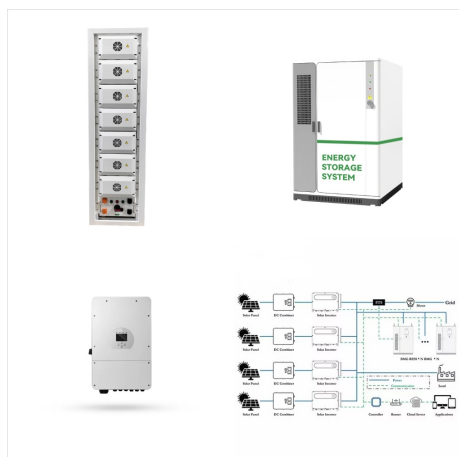

Brushless Power System The TRX-4M Brushless Power System gives you up to 50% more speed and more crawling torque and precision than brushed power systems. Rip wheelies in your monster truck or navigate a technical crawling course in your custom High Trail rig. The new TRX-4M Brushless Power System gives you the best of both worlds!

AMP ESC & 2-POLE MOTOR COMBO
BRUSHLESS30-Simple ??? Capable ??? Safe
Reaktor Series Brushless Power System Owner's
Manual ??? Entire contents (C)2014 Radiant RC.
??? Before using your product, review all
documentation and inspect the products care-fully.

We are proud to present the Furitek SCORPION
Brushless Sensored ESC/Motor Power System,
designed specifically for the 1/18 Arrma Grom
trucks. This powerful system features a sensored
ESC and a high-performance brushless motor,
delivering unparalleled performance and smooth
control. It is a direct plug and play system for Arrma
Typhon Grom

The Traxxas TRX-4M Brushless FOC Power
System Combo is the ultimate upgrade for any
TRX-4M model, providing superior low-speed torque
and incredible precision. Designed to work
seamlessly with the Traxxas TQ and TQi
transmitters, this powerful brushless system
includes a 3350kV Outrunner motor and is
compatible with 2S TRX-4M iD(R) LiPo

Traxxas, a frontrunner in the RC car industry, has just unveiled their latest game-changer: the BL-2s??? Brushless Power System. This innovative power system promises not only enhanced speed and acceleration but also ???

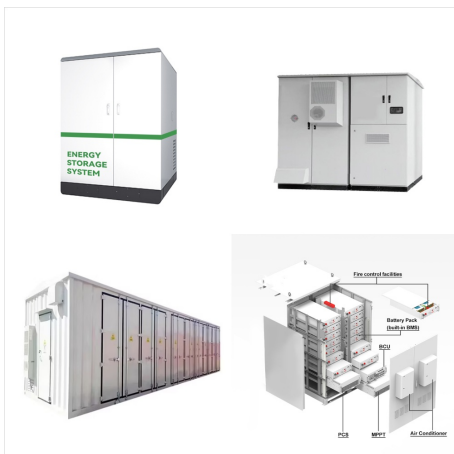

The BL-2s??? brushless power system delivers more speed, faster acceleration, and virtually maintenance-free operation at an affordable price. Drivers experience smooth, effortless power with added punch for tire-shredding burnouts and blazing fast speed. Optimized for 7-cell NiMH and 2s LiPo batteries, the BL-2s delivers all-day fun, battery

FURITEK TORPEDO BRUSHLESS POWER SYSTEM for AXIAL SCX24 FURITEK team in the past 2 years have been designed and produced several brushless ESCs for mini crawlers with the famous LIZARD line of ESCs. Being ???

The Furitek SCX24 Stinger Brushless Power System with 12123450kV Brushless Motor is a great way to get a light weight, high torque power system. This incredible combo includes the Furitek Micro Komodo Motor (FTKFUR2100). Don't let the size of this motor fool you, this 12pole motor was specifically designed to provide high torque at low RPM.

FURITEK TORPEDO BRUSHLESS POWER SYSTEM for AXIAL SCX24 FURITEK team in the past 2 years have been designed and produced several brushless ESCs for mini crawlers with the famous LIZARD line of ESCs. Being the first FOC-technology ESCs ever being designed and produced for the mini crawlers, the LIZARD ESCs have changed

The new Furitek STINGER brushless power system for AX24 includes the Micro Komodo 1212 3450kV with lightest and smallest size yet very powerful at low speed yet providing powerful and fast at high speed.

The TRX-4M (R) Brushless Power System gives you up to 50% more speed, more crawling torque, and greater precision than brushed power systems. Rip wheelies in your monster truck or ???

The Furitek SCX24 Stinger Brushless Power System with 1212-3450kv Brushless Motor is a great way to get a light weight, high torque power system. This incredible combo includes the Furitek Micro Komodo Motor (FTK-FUR-2100). Don't let the size of this motor fool you, this 12-pole motor was specifically designed to provide high torque at low RPM.

FURITEK STATER 2S BRUSHLESS POWER SYSTEM FOR SCX24. SUPPORT 2S LIPO only. Introducing the Furitek STATER brushless power system for SCX24, the system includes the VENOM 1212 3450kv with lighter and smaller size yet very powerful at low speed but also more powerful and fast at high speed.

This is the Traxxas Velineon VXL-3s Brushless Waterproof Motor and ESC Complete Power System for electric powered R/C vehicles. The Velineon Brushless System is the ultimate upgrade to any 1/10 Traxxas vehicle currently powered by the Titan 12T or Stinger 20T motor.

FURITEK MONSTER BRUSHLESS POWER SYSTEM FOR TRX-4M Introducing the Furitek MONSTER brushless power system for TRX-4M monster truck conversion version, the system includes the FURITEK Greyhound 1410 7500kv with small size yet very powerful and fast and a Lizard Pro esc. The motor is designed with high power for the monst

FURITEK TORPEDO BRUSHLESS POWER SYSTEM for TRX-4M FURITEK team in the past 2 years have been designed and produced several brushless ESCs for mini crawlers with the famous LIZARD line of ESCs. Being the first FOC-technology ESCs ever being designed and produced for the mini crawlers, the LIZARD ESCs have changed the games for the mini crawlers.

The BL-2s brushless power system delivers more speed, faster acceleration, and virtually maintenance-free operation at an affordable price. Drivers experience smooth, effortless power with added punch for tire-shredding burnouts and blazing fast speed. Optimized for 7-cell NiMH and 2s LiPo batteries, the BL-2s delivers all-day fun, battery

The Velineon 3500 Brushless Motor uses ultra high-temperature Neodymium magnets, high-speed ball bearings, and a precision balanced rotor for power and long-life. Since there are no brushes or commutator to wear out, the need for maintenance is virtually eliminated.

The BL-2s brushless power system delivers more speed, faster acceleration, and virtually maintenance-free operation at an affordable price. Drivers experience smooth, effortless power with added punch for tire-shredding burnouts and blazing fast speed. Optimised for 7-cell NiMH and 2s LiPo batteries, the BL-2s delivers all-day fun, battery

The brushless BL-2s 3300 kV motor operates sensorlessly, offering the expected speed and torque of brushless technology without the hefty price tag. With its brushless design, the BL-2s ensures longevity and minimal maintenance needs.

The TRX-4M(R) Brushless Power System gives you up to 50% more speed, more crawling torque, and greater precision than brushed power systems. Rip wheelies in your monster truck or navigate a technical crawling course in your custom High Trail rig. The new TRX-4M Brushless Power System gives you the best of both worlds!

The Traxxas TRX-4M Brushless FOC Power System Combo is the ultimate upgrade for any TRX-4M model, providing superior low-speed torque and incredible precision. Designed to work seamlessly with the Traxxas TQ and TQi transmitters, this powerful brushless system includes a 3350kV Outrunner motor and is compatible with 2S TRX-4M iD(R) LiPo

FURITEK STINGER BRUSHLESS POWER SYSTEM FOR SCX24 With the incredible successful release of Komodo brushless motor and Lizard Pro brushless ESC for SCX24 in 2021, Furitek team has listened to customer's feedbacks and has developed a smaller motor yet powerful and smooth to further improve the performance of the SCX24.

The BL-2s brushless power system delivers more speed, faster acceleration, and virtually maintenance-free operation at an affordable price. Drivers experience smooth, effortless power with added punch for tire-shredding burnouts and ???

FURITEK MONSTER BRUSHLESS POWER SYSTEM FOR TRX-4M Introducing the Furitek MONSTER brushless power system for TRX-4M monster truck conversion version, the system includes the FURITEK Greyhound 1410 7500kv with small size yet very powerful and fast and a Lizard Pro esc. The motor is designed with high power for the monster truck with a special

The key to the Velineon's extreme power output is total system optimization. Each component, from the Traxxas high-current battery connector, to the powerful Velineon 3500 brushless motor, is carefully engineered to work with other system components to eliminate restriction and allow maximum power flow.

About this item . Introducing the Furitek STATER brushless power system for SCX24, the system includes the VENOM 1212 3450kv with lighter and smaller size yet very powerful at low speed but also more powerful and fast at high speed.

Introducing the Furitek STINGER brushless power system for SCX24, the system includes the Micro Komodo 1212 3450kv with lighter and smaller size yet very powerful at low speed but also more powerful and fast at high speed. The motor is designed with high torque at low speed crawling and with a special firmware from the Lizard Pro ESC, this
