

What is a mechanical solar system model from plywood?

Orrery- a Mechanical Solar System Model From Plywood: This project explores the use of plywood to make mechanical,decorative,and structural parts. This instructable is about how to build a desktop orrery. An orrery is a mechanical model of the movement and position of the planets in our solar system...

Who designed Orrery - a mechanical solar system model?

Orrery - a Mechanical Solar System Model,Designed for Laser Cutting: Full credits for this orrery go to MatthewS3,who designed the orrery on which we (FabLab Zwolle,the Netherlands) based our one. Our orrery works basically the same as the orrery from MatthewS3,for the building details look at his instructable. (her...

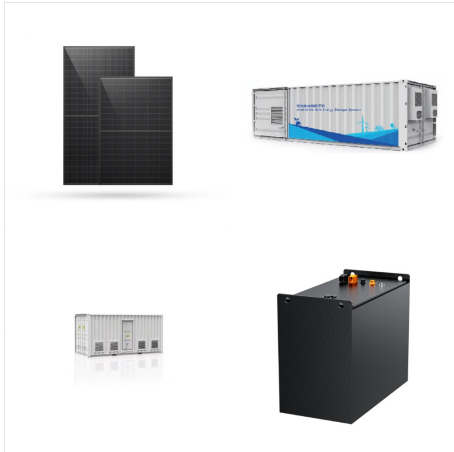

How do you design a planetary Orrery?

Start by designing gears. The gears are the heart of the orrery. The gears need to have specific teeth ratios to ensure the planets move that the proper speed relative to one another. For each gear,you'll need to know the number of teeth (which is proportional to its diameter) and the size of the shaft in the center of the gear.

Explore the wonders of the solar system with the ROKR Mechanical Orrery ST001. This 3D wooden puzzle lets you assemble a fully-functional model of the solar system complete with moving planets and moons. Perfect for science enthusiasts and puzzle lovers alike.

BUILD A PRECISION MECHANICAL SOLAR SYSTEM

Science Art meticulously creates our one of a kind orrery designs--mechanical models of the solar system. At the heart of our orrery models lies a powerful solid brass clockwork mechanism, ???
