

How much solar power does Zimbabwe have?

Zimbabwe had around 17 MW of installed PV capacity at the end of 2020, according to the latest statistics from the International Renewable Energy Agency. The country's grid has suffered from daily power outages over the past decade, with the government struggling to raise capital to invest in new power stations.

What is the largest solar plant in Zimbabwe?

The largest solar plant under construction in the country is a 25 MW facility in Matabeleland North province. The Zimbabwe Energy Regulatory Authority (ZERA) reported this week that seven solar PV projects with a combined capacity of 66.6 MW are now in advanced stages of construction and are expected to be grid-connected by end of this year.

Which companies are building a 20 MW solar array in Matabeleland?

Richaw Solar Tech (Pvt) Ltd., meanwhile, is constructing the 5 MW Sunset Technologies Solar Park in Gwanda, Matabeleland South province. And Harava Solar Park is installing a 20 MW solar array in Seke, Mashonaland East province. Power Ventures (Private) Ltd. is building a 25 MW Chidobe-Mizpah project in Hwange District, Matabeleland North.
