

How much money does Cambodia need to build a power plant?

The Cambodian government has stated in its PDP that it will need \$9 billion of investment to develop new power plants and expand the national grid, of which \$2.5 billion has been approved between 2022 and 2025. Opportunities exist for power generation and transmission equipment.

Does Cambodia have electricity?

In very remote rural areas, the only source of electricity may be a small portable generator. The Government of Cambodia set a goal of electrifying all villages by 2020 and connecting at least 90 percent of all households to grid-quality electricity by 2030.

What are Cambodia's 'principles for regulating rooftop solar power?

In March 2023, Cambodia launched the "Principles for Permitting the Use of Rooftop Solar Power," to regulate rooftop solar installations and ensure "transparency, accountability, and fairness."

What is Cambodia's power development master plan 2022-2040?

In its Power Development Master Plan (PDP) 2022-2040, Cambodia announced that there would no more investment of coal power plants after 2024, and renewable energy (domestic and imported) would play a significant role towards Cambodia's transition to clean energy.
