

Most solar power camping setups include a portable battery pack. For outdoors, you'll want a kit that's rugged, waterproof and lightweight. The house battery is automatically charged whenever the motor home is plugged into a power source or when it's running. For several days of stationary camping, though, this isn't enough

The Problem with CPAP Batteries. CPAP battery packs are often used as an alternative power source for those on the go. These are essentially small power banks that are marketed specifically towards CPAP users, and while they may seem like a convenient solution at first glance, there are several drawbacks that make them less than ideal for long-term use???or ???
