

Does the federal government offer free solar panels?

The federal government does not provide free solar panels, but does provide incentives that reduce the cost of going solar. You can go solar with no upfront cost by taking out a \$0-down loan, signing a lease or PPA, or subscribing to a community solar farm. Of the no upfront cost solutions, \$0-down loans provide the best long-term savings.

Are solar panels free?

You may see some solar panel companies advertise their panels as "free" or "no cost." In most cases, these companies are describing a solar lease or solar power purchase agreement (PPA) type of program. Under these agreements, the company installs solar panels on your roof or property for no upfront to you; hence, the "free" terminology.

Do low-income solar programs offer free solar panels?

Low-income solar programs don't typically provide completely free solar panels, but they can greatly reduce installation costs. Most of the programs provide rebates or grants to cover the majority of rooftop solar installation costs for qualified applicants, but there may still be some costs or payments required.

Are free solar panels a scam?

Many other "free" or "no-cost" solar programs are outright scams. Tax credits and other incentives can reduce the upfront costs of going solar without committing you to unfavorable terms -- just make sure they're legitimate. Can you get free solar panels?
