CoH 2 has MM vs. AI and also "Theater of War" which are stand-alone missions you either play solo or coop with an AI or human. Keep in mind that you have to pay for quite a lot of stuff in CoH 2. Originally posted by StallinFourThyme??? :

When I played the original Company of Heroes in 2006, I struggled to think of how a World War II real-time strategy game could look or play a whole lot better than it does. Apparently, so has its developer, Relic, because seven years later Company of Heroes 2 is strikingly similar.

I'm new to COH2, but played a ton of COH. Did they remove the skirmish mode? My favorite part of the first COH was the skirmish mode where I could play against AI on those capture the territory type maps. There were tons of maps available in COH to play against and with the AI. I can't seem to find that in COH2. Closest thing I can find are the AI Battles, but ???

There are also no "mirror matches" in Company of Heroes. Axis factions can only play against allied factions, and vice-versa. Allies Americans British (Commonwealth) Axis Wehrmacht as they can easily win you the game. Closing. Company of Heroes multiplayer has a very steep learning curve, and the game has been out for 6 years at the

Nor are they easy to play ??? Company of Heroes 3 will test your tactical abilities to breaking point. If you jump into its multiplayer side, without first developing a deep knowledge of its units

The Mission packs (Theater of War) are mini-campaigns that offer Skirmish solo/Co-op and Scenarios solo/Co-op. It is possible to play a custom game versus A.I using the MP factions Wehrmacht (Base game), Soviet (Base game), Oberkommando West (Western ???

The Western Front isn't as quiet as you may have heard from other sources but the Eastern Front is almost certainly a great deal louder. That's what Company of Heroes 2 would have you believe at any rate, with a flashy new engine and a great deal of clamour presenting its conflict. But does the long-awaited sequel add anything more than enormous flurries and drifts ???

Company of Heroes 2 campaign for around 16 hours. Company of Heroes 2: Ardennes Assault campaign for around 9 hours. If you complete this all you still can play skirmish vs AI or CO-OP (u with players vs AI) so yeah i say its pretty worth it. #5 < > Showing 1-5 of 5 comments . Per page: 15 30 50.

2nd post about this same issue now.. I open the game, I get to the main screen that shows the Company of Heroes 2 logo, I can hear music playing in the background, but im stuck on this particular screen since I downloaded the game. I've reached out to steam and the developer and they haven't found a solution.

3: Can you capture artillery? Tanks? 4: Can you completely level the buildings? 1: you play against player(s) or AI(s) to complete the same objective before the other does. Skirmish solo can be either as 1v1 or custom game. 2: Depend on what campaign you're talking about. Soviet campaign units are only for that specific mission.

Advanced Powers - A sci fi style mod. If you know about the modern Wolfenstein games take that and port it into coh2. There is all sorts of wacky stuff from the space Luftwaffe orbit dropping a Panther tank to the USA Exo Suit soldiers who can just solo a tank. It's incredibly silly and fun to mess around with.

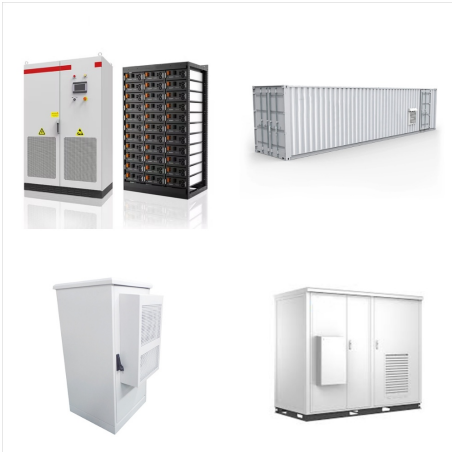

Lets say, you will never ever play through online. Still COH2 has massive content for single player offline. Yes, the original campaign is average, and Ardennes Assault campaign is ok, not near ???

Company of Heroes 2 is also generous, packed full of different ways to play. There's a solo campaign charting the story of the Eastern Front through the reflections of a former Soviet general for starters. Then there are 18 further co-op and solo missions to fight through in the Theatre of War mode. The missions are varied, too.
