

Does power systems offer a cardio barbell set?

Power Systems offers a variety of cardio barbell sets to meet any fitness goal. The 51" bar and bar plates are sold separately to build the custom barbell weight set you want for your cardio routine.

What is a cardio barbell set?

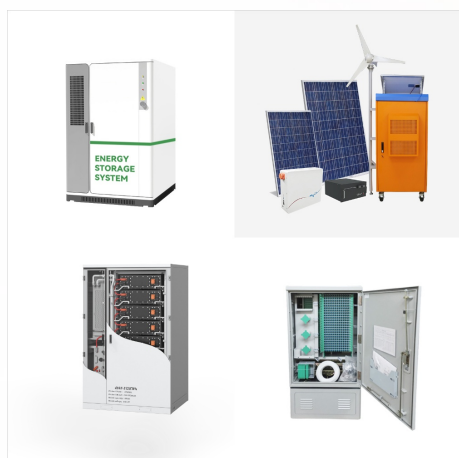

The cardio barbell sets from Power Systems bring the argument about which should come first, cardio or strength training, to an end. This professional quality workout equipment combines cardio with strength training to fatigue major muscle groups while increasing the heart rate.

What is a power systems bar and plate set?

Large numbers and Power Systems color palette provide easy weight identification at a glance. Designed to provide your group fitness classes a bar and plate set that is superior in quality and versatility. The plate design features a unique beveled edge with designated grip locations that form a polygon design.

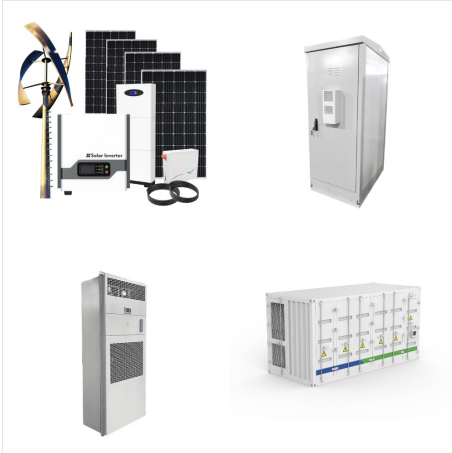

What is a group fitness barbell set?

A group fitness barbell set will easily house multiple weights and barbells for easy storage and quick grabbing. To get the best results from circuit training with the cardio barbell sets, perform a number of reps of one exercise at a fast pace and then move on to the next exercise.
