

Does caterpillar have a global MWM network?

The global MWM service and distribution network ensures high product and service quality, regardless of the location. To enable this feature, you must accept the use of targeting, functional, and performance cookies. Caterpillar's Germany locations today include manufacturing Dortmund, Lunen, Kiel, Mannheim, and Rostock.

Why should you choose Caterpillar Motoren GmbH & Co KG?

Caterpillar Motoren GmbH & Co. KG is offering its customers the most cost-efficient and adequate service solutions in the industry. We are adding value to your investment as well as reducing down time and operating costs. Your engine will be returned to excellent performance and reliability solely by precise maintenance work with our OEM parts.

Who is Caterpillar & O&K?

The company is part of Caterpillar's Energy and Power Systems group specializing in the development and the production of large engines and generators. 1893: O&K (Orenstein & Koppel) opened the Dortmund factory that produced products such as steam powered excavators, steam locomotive wagons and bucket dredgers.

Why should you choose caterpillar generator sets?

The generator sets of Caterpillar Motoren GmbH & Co. KG stand for high operational safety through innovative modular and integral construction. We call this "intelligent simplicity" because you need reliable, flexible, and efficient energy supply.

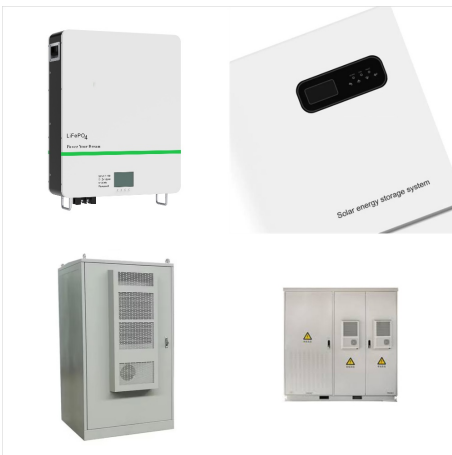

Who makes caterpillar excavators?

In 1893, O&K, Orenstein & Koppel opened the Dortmund factory that produced steam powered excavators. Today Caterpillar Global Mining HMS GmbH manufactures large hydraulic mining shovels. In 1992, the EDC European Excavator Design Center was founded as a Joint Venture to develop and manufacture wheeled excavators for Caterpillar.
