Others say the battery will not hold a charge. "Keeps camera fully charged

The solar panel on a solar-powered trail camera can significantly extend the camera's battery life by continuously recharging the internal battery. While the exact impact will depend on the camera's usage, location, and amount of sun exposure, solar panels can effectively provide unlimited battery life for the camera.

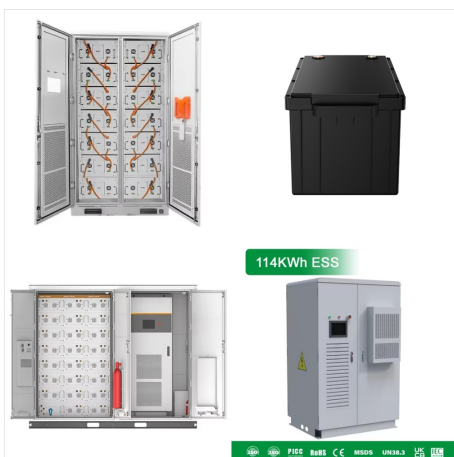

Solar Panel, Charge Controller and Battery, all in one! A 10 Watt Solar Panel utilizes a built-in Charge Controller to charge an internal 12 Volt, 9 Amp Hour, Sealed Lead Acid Battery (included), providing enough energy to power your RECONYX camera indefinitely in most situations.

Specifically designed by for cellular trail cameras by Herd 360. 10w carbon fiber solar panel with 25,000mah lithium battery pack. Photos may show items such as cameras and T-Post mounts are not included in the package. Please note that ???

The solar panel needs to be purchased separately, and it is only compatible with Reolink solar-powered cameras such as this Argus 3 Pro and Argus 2. The camera doesn't support continuous recording, and the motion-activated clips only last from 8 to 30 seconds.

The New Solar Camera Power Pack is compatible with all of our trail camera models, and provides a constant power source for your camera in the field. The Power pack includes 6 AA NiMH rechargeable batteries that are constantly being recharged by the highly efficient solar cell to keep your cameras running strong in the field.

The EufyCam 3 is the best solar security camera (and the only camera on this list) with built-in solar panels, which make it easier to install than the competition. Eufy also stands out for 4K video quality and impressive local storage.

Easily keep trail cameras charged with the Stealth Cam Solar Battery Pack. The T-Pivot Panel can be easily adjusted and works in low light conditions. Available with 3,000mAh and 5,000mAh lithium ion batteries, these amor phous solar panels rely on renewable energy, not boxes of traditional batteries that cost a for tune and fizzle out

Purchased the solar / lithium battery combo in May for the season and intalled it in September. Charged both the solar panel and the battery before install (why you need to charge a solar panel I have no idea). Either way, the charge didn't last more than about 6 weeks. The individual batteries were lasting much longer.
