

What is centrotherm photovoltaics?

centrotherm photovoltaics AG is the world's leading technology and equipment provider for the photovoltaics sector. With more than 30 years of experience and an extensive, proven technology platform on almost all levels of the photovoltaic value chain, the company sees itself as a pioneer in the industry. Furnaces for advanced packaging.

What happened to centrotherm photovoltaics?

As part of company restructuring in the centrotherm Group, the name of the photovoltaic business unit was changed to centrotherm photovoltaics solutions GmbH & Co. KG in 2004 and in 2006 became centrotherm photovoltaics AG.

Who is centrotherm Elektrische Anlagen kg?

The company was founded in 1976 as centrotherm Elektrische Anlagen GmbH + Co. KG. In the 1990s the company broke into the photovoltaic business and since 2000 has been an important global player in this industry sector.

Chief executive Jan von Schuckmann said that in addition to the photovoltaic (PV) and semiconductor industry, the company also plans to serve other industry sectors. "Customers from other sectors should also benefit from our core competencies in thermal processes and system building.
