Centrus Analytics is our treasury management, valuations and data service. Our solutions enable treasurers to leverage technology and connectivity. Power price volatility is reshaping risk management strategies across industries. As the energy market faces unpredictable fluctuations, hedging has

The U.S. Nuclear Regulatory Commission (NRC) recently approved Centrus Energy's request to make high-assay low-enriched uranium fuel (HALEU) at its enrichment facility in Piketon, Ohio. The plant is now the only licensed HALEU production facility in the United States. The U.S. Department of Energy (DOE) is currently supporting a three-year, \$170 a?|

Centrus Energy Corp. (NYSE American: LEU) announced today that it has completed construction of a cascade of advanced uranium enrichment centrifuges as well as most of the associated support systems. This milestone puts Centrus on track to begin demonstrating first-of-a-kind production of High-Assay, Low-Enriched Uranium (HALEU) in Piketon, Ohio, by a?|

Centrus Energy is a trusted supplier of nuclear fuel and services for the nuclear power industry. Centrus provides value to its utility customers through the reliability and diversity of its supply sources a?? helping them meet the growing need for clean, affordable, carbon-free electricity. Since 1998, the Company has provided its utility

. Centrus is a trusted supplier of nuclear fuel components and services for the nuclear power industry. Centrus provides value to its utility customers through the reliability and diversity of its

Centrus Energy Corp has produced the nation's first 20 kilograms of high-assay low-enriched uranium (HALEU) a?? a crucial material required by many advanced reactor technologies. The production is the first of its kind in a?|

US-based TerraPower and Centrus Energy Corp have signed a memorandum of understanding (MoU) to expand their collaboration aimed at establishing commercial-scale, US production capabilities for high-assay, low-enriched uranium (HALEU). The fuel is needed to supply TerraPower's first-of-a-kind Sodium reactor and energy storage system.

Key learnings: Power System Definition: An electric power system is a network designed to efficiently generate, transmit, and distribute electricity to consumers.; Voltage Regulation: Managing voltage levels through transformers is crucial for minimizing energy loss and ensuring safe, efficient power delivery.; Transmission Importance: High voltage a?|

TerraPower has announced plans to team with nuclear fuel and services provider Centrus Energy to establish commercial-scale, domestic production capabilities for high-assay, low-enriched uranium. This, it says, will be needed to fuel many next-generation reactor designs, including the recently announced Sodium Power Storage System designed by TerraPower a?|

Centrus Energy Corp. (NYSE American: LEU) announced today that it has completed construction of a cascade of advanced uranium enrichment centrifuges as well as most of the associated support systems. This milestone a?|

Bellevue, Wash., and Bethesda, Md. a?? July 17, 2023 a?? TerraPower and Centrus Energy Corp. announced today a new memorandum of understanding to significantly expand their collaboration aimed at establishing commercial-scale, domestic production capabilities for high-assay, low-enriched uranium (HALEU) to supply TerraPower's first-of-a-kind NatriumTM a?|

About Centrus Energy Corp. Centrus Energy is a trusted supplier of nuclear fuel and services for the nuclear power industry. Centrus provides value to its utility customers through the reliability and diversity of its supply sources a?? helping them meet the growing need for clean, affordable, carbon-free electricity.
