1 . The Board of Directors of the African Development Bank Group has approved funding worth EUR 28 million to build solar power plants in Gassi and Lamadji, Chad. This is part of a?|

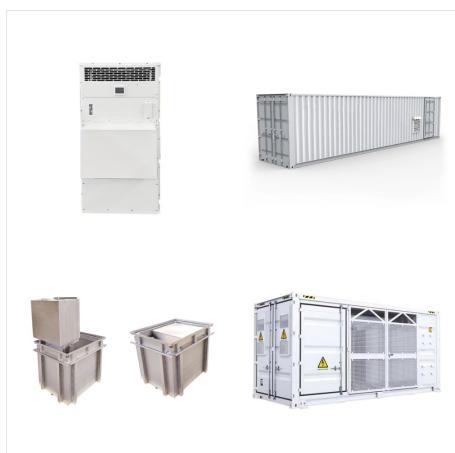

A Case Study by ARaymond - with Full Tilt by BCI . Recent projections for the future of the U.S. solar market have been mixed. While some analysts expect solar-power projects to hit a new record high in 2022 (with utility-scale solar nearly doubling last year's projected gigawatts, according to S& P Global Market Intelligence) others are not as certain.

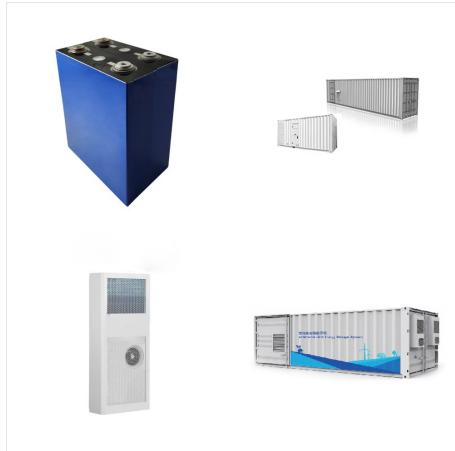

The headquarters of ARaymond Energies are in Grenoble, France, with sales offices around the globe. We take pride in being able to leverage the 150 years of expertise of the ARaymond Network to develop unique and meaningful solutions, while being able to produce them in large quantities and standardize them. About ARaymond

ARaymond croit en l'importance des énergies renouvelables pour notre avenir et s'engage à développer des ruptures technologiques pour rendre le processus d'assemblage plus facile, plus rapide et moins cher. Nos clips permettent aux panneaux photovoltaïques de se clipser facilement sans vis et boulons et avec peu de main d'œuvre

ARaymond Energies offers clips designed ground mount PV solar panel configurations. With ARaymond Energies clips, you can fasten the PV module to the racking structure with a single component in record time. Browse our easy-to-install, screwless, tool-free solar hardware.

ARaymond: ARaymond believes in the importance of renewable energies for our future and is committed to developing breakthrough technologies in order to make the assembly process easier, faster and cheaper. The goal of the solar industry is to reduce the price of the production of electricity to be more competitive than fossil-based electricity.

ARaymond Energies | 1 742 abonnes sur LinkedIn. Cost-effective, screwless and tool-free fastening solutions for photovoltaic systems. | ARaymond Energies provides cost-effective clipped fastening solutions for the solar energy market. We design screwless and tool-free solutions to make the assembly and installation of photovoltaic panels faster, easier, and more reliable.
