How do I charge my solar power bank?

You have multiple options when it comes to charging your solar power bank. You can charge using electricity and sunlight. To charge by electricity, you can either plug your solar power bank into a USB charger with a wall outlet or you can plug into your computer. We suggest using a wall outlet so you will not drain your computer battery.

Does ChargeWorx offer a power bank?

ChargeWorx offers a solar-powered, splash proof Power Bank with a 10,000 mAh capacity. It puts up to 75 hours of device time in the palm of your hand and is suitable for smartphones, tablets, game consoles, and more. For more information, select a row below to filter reviews. Power Bank is the product that answers the question.

What is a solar charger power bank?

Our solar charger power bank is the perfect solution for keeping your devices charged while on-the-go. Equipped with a high-efficiency solar panel, it can harness the power of the sun to charge its own built-in battery. It also has a USB output, allowing you to charge your phone, tablet, or other USB-powered devices.

What is a chargeworx Back-Up Charger?

Chargeworx builds back-up chargers with functionality you can bank on. Choose from slim-line designs, multi-ports, solar or lithium-battery power, water-proof casings, and a wide range of output ratings.

Can You charge a solar power bank with a wall charger?

While a solar power bank is designed to harness sunlight, you can still charge it electrically using a wall charger. Just connect your bank with a suitable wall charger using a USB cable, then plug the charger into an outlet. Wall charging is just another fancy term for charging your power bank using a wall adapter.

CHARGEWORX SOLAR POWER BANK INSTRUCTIONS

The solar power bank charging time depends on the number of panels your power bank is equipped with. Solar power banks with more panels can charge faster as they can convert more solar energy into electricity through the photovoltaic effect. On average, a solar power bank with a capacity of 25,000mAh can be fully charged by sunlight alone
