The federal Morrison government has unveiled plans to underwrite the construction of a 1MW solar farm on Christmas Island, an external territory in the Indian Ocean with a population hovering

# CHRISTMAS ISLAND SOLAR POWERED EVERYTHING

The way solar works is that you store the power generated during the day on batteries that power the house throughout the day. So the question is (a) whether a solar system can generate the average power required by your house, and (b) whether the battery momentary output is enough to power all your peak needs.
