

Who is Cirrus power systems?

Combining 150 years' experience, Cirrus Power Systems is a joint venture between Australia's Teterin Engineering and Germany's August Storm. Teterin has been trusted for precision engine reconditioning across mining, utilities, rail and defence since 1947, and August Storm has been one of Europe's largest service experts in gas engines since 1937.

What is Cirrus System?

Cirrus shall be a program/schedule-based system providing maximum flexibility of programming and giving the operator absolute and full control of the entire system. The Cirrus system shall be capable of unlimited programs residing in the system at one time. Each program shall be further defined by a number of smaller schedules.

Who are Cirrus Technologies?

We are a financial technology business that is dedicated exclusively to CoMetrix and supporting our Australian Financial Services Licensee clients.

What is Cirrus irrigation system?

With more than 3 years of field operation, Cirrus allows you to control your irrigation system with more precision than ever before. Like Rain Bird's Nimbus™ II and Stratus™ II, this multimanagement central control system takes advantage of the newest Microsoft™ Windows™ operating system with advanced graphics and 32-bit architecture.

Which Cirrus central control system should I Choose?

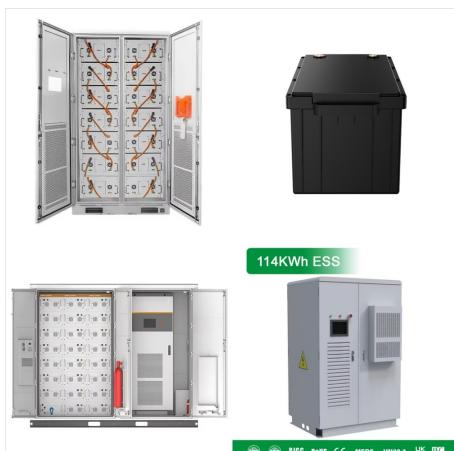

For the easiest upgrade in the industry, count on Cirrus central control and be confident you made the right choice. The computerized central control system shall be the Rain Bird Cirrus as hereinafter specified.

This streamlines the after sales and support of our customer's assets. We stand by our products!

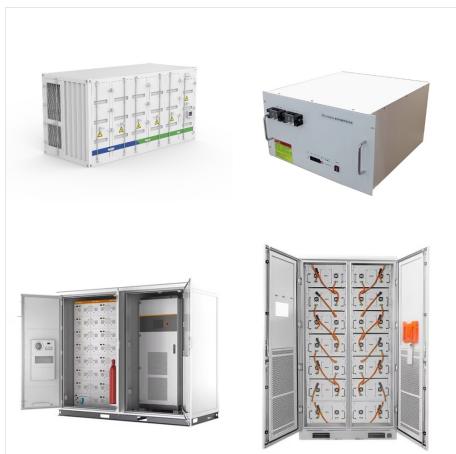

The FAA issued an airworthiness concern sheet (ACS) after a cockpit power lever fractured on a Cirrus SR20 as the pilot advanced the throttle for takeoff. The pilot cut fuel to the engine and safely aborted the takeoff. Follow-up visual and dye-penetrant examinations by the training fleet operator revealed cracks in 24 more aircraft. The original failure and the cracks a?|

FSR Consulting LLC is a small business registered 2009 in Pennsylvania under Minority Owned Small Disadvantaged Business category.
