

CleanLeaf, previously known as Borrego O& M, stands at the forefront of the renewable energy sector. Our expertise lies in the operations and maintenance of both photovoltaic systems and energy storage solutions. We are dedicated to enhancing the efficiency and uptime of an expanding portfolio of commercial and utility-scale solar assets.

Cleanleaf Energy's approach to Operations and Maintenance embodies a seamless blend of expertise and innovation. "How We Work" is a testament to our systematic processes that minimize downtime and maximize energy yield. We ???

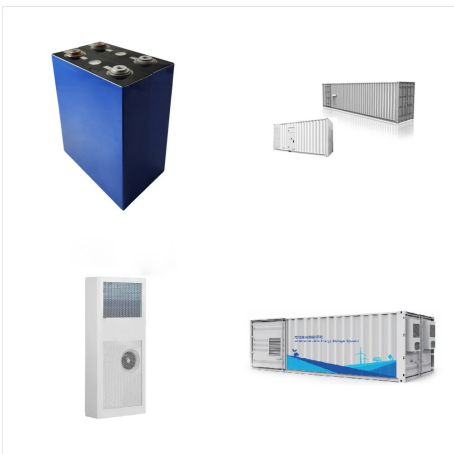

An early visionary in the clean energy revolution, Borrego Energy, LLC (Borrego) celebrates a new chapter as it rebrands its O& M business as Cleanleaf Energy, with a sole focus on providing industry-leading operations and maintenance (O& M) services to utility and commercial photovoltaic solar (PV) and battery energy storage (BESS) projects

CleanLeaf, previously known as Borrego O& M, stands at the forefront of the renewable energy sector. Our expertise lies in the operations and maintenance of both photovoltaic systems and energy storage solutions. We are dedicated to enhancing the efficiency and uptime of an expanding portfolio of commercial and utility-scale solar assets.

Cleanleaf will manage more than 1.9 GW across 1,000 solar and storage projects previously under the Borrego name. The company's special projects group will focus on investigation and troubleshooting, pre-construction ???

Cleanleaf will manage more than 1.9 GW across 1,000 solar and storage projects previously under the Borrego name. The company's special projects group will focus on investigation and troubleshooting, pre-construction hand-offs ???

Cleanleaf Energy's approach to Operations and Maintenance embodies a seamless blend of expertise and innovation. "How We Work" is a testament to our systematic processes that minimize downtime and maximize energy yield. We leverage advanced analytics and precise monitoring for proactive maintenance and real-time optimizations.

Not only could it lead to a cleaner, more resilient energy system, but it could also provide the flexibility and sustainability needed to address the country's current energy challenges. At the heart of this model lies the ???

At Cleanleaf Energy, our journey is marked by innovation, growth, and a steadfast commitment to sustainable energy. We stand proudly on our foundation as Borrego Solar, a name synonymous with quality and excellence in the EPC, O& M and Development business since 2002.

Not only could it lead to a cleaner, more resilient energy system, but it could also provide the flexibility and sustainability needed to address the country's current energy challenges. At the heart of this model lies the potential for Jamaica to build a network of 10 to 12 interconnected green mini-grids.

By leveraging advanced diagnostics, preventative maintenance, and swift corrective actions, we safeguard your energy output, investment returns, and the environment. Trust in our hands-on expertise for an outstanding customer experience and help empower your clean energy journey.
