development management. CleanTech Energy, Inc.
is a Delaware corporation.

Marine energy is often thought of as an untapped
resource when it comes to renewable energy
generation. Reports by IRENA suggest that tidal
energy has the potential to generate 1,200TWh of
energy. Harnessing the motion from waves can
produce 29,500TWh energy and Ocean Thermal
Energy Conversion (OTEC) can produce
44,000TWh of energy.

Clean energy technology investments in 2024 will rise by 10-20% compared with 2023, S&P Global Commodity Insights forecasts. This report identifies the top trends to watch in the sector ??? from competition among solar and storage manufacturers, to record offshore wind capacity auctions and growing interest in low-carbon hydrogen as a feedstock.
