

Why is Ballard a good fuel cell company?

On the corporate side, public pressure for companies to become more environmentally friendly is also a strong driver for Ballard's fuel cell systems. Combined, these trends have led us to increase our manufacturing capacity three-fold and our headcount twenty-fold in Europe in the last five years.

Will Ballard fuel cell system be integrated in Hollandse KUST Noord offshore wind project?

The Ballard fuel cell system will be integrated in the Hollandse Kust Noord offshore wind project. The Hollandse Kust Noord offshore wind project, located off the coast of the Netherlands, will have a capacity of 759 MW to generate at least 3.3 TWh per year.

What are Ballard's new purchase orders?

The purchase orders include the largest single order to-date that Ballard has received from Solaris - and the largest announced deployment of fuel cell city buses in Europe- with 127 buses set for operation in Bologna, Italy.

Vertiv (NYSE: VRT), a global provider of critical digital infrastructure and continuity solutions, and PEM fuel cell market leader, Ballard Power Systems (NASDAQ: BLD; TSX: BLD), have entered into a strategic technology partnership with a focus on backup power applications for data centres and critical infrastructures, scalable from 200kW to multiple MWs.
