Generator HFW-90-T6U Iveco Diesel Engine:
Long-life, heavy-duty, 4-cycle, direct injection
engine from a world renown manufacturer for
economy of operation. and maximum reliability and
durability. Capable of full load acceptance in one
step. Cooling: Radiator with belt driven pusher fan.
Filtration: Heavy-duty

COLORADO STANDBY POWER SYSTEMS

Colorado Standby has received numerous federal contract awards as a prime contractor to provide generators, generator sets, and related equipment to support backup power needs and overseas operations for agencies including the Department of State Bureau of Overseas Building Operations (DOS/OBO), Department of the Interior National Park Service

Backup Power. For critical infrastructure and sensitive applications, a battery energy storage system can serve as a backup power source during grid outages or emergencies, ensuring uninterrupted power supply and preventing data loss or disruptions. This is usually a good solution for short power outage scenarios. Demand Charge Management

Victron Energy Batteries. Batteries provide two fundamental needs that humans often find themselves lacking: power and freedom. Whether you want to set out on a month-long boating trip, have dreams of living completely off-grid, or simply want to power your vehicle reliably, batteries are a necessary part of your vision, and there's no better solution than a Vicron ???

The SmartShunt is a good alternative for a BMV
battery monitor, especially for systems where
battery monitoring is needed but less wiring and
clutter is wanted. The SmartShunt is equipped with
Bluetooth, a VE.Direct port and a connection that
can be used for: monitoring a second battery,
midpoint monitoring or a temperature sensor.
