About Xantrex The Xantrex brand is one of the most successful and popular brands of onboard AC power technology. Xantrex products are used in a variety of applications in the RV, marine, military, construction, EMS, bus, work service vehicle and commercial truck markets. Xantrex ensures its products are put through extensive reliability testing and certifies Read more

For information about installing the Xantrex XW Inverter /Charger, see the Xantrex XW Hybrid Inverter/Charger Installation Guide (975-0384-01-02). can be used for residential and commercial applications: stand-alone, grid-backup, and grid-tie with battery energy storage. Capable of being grid-

All XW Hybrid Inverter/Chargers are true sine wave inverter/chargers that can be used for both residential and commercial applications; stand-alone, grid-backup, and grid-tie with battery energy storage. The Xantrex XW inverters are the most efficient (~95%) that we know of for grid-interactive, where you are selling back excess power from a battery based system.

The Tripower X 20-US Commercial Inverter. The SMA Sunny Tripower X 20-US is a commercial solar inverter designed to meet the energy needs of small to medium-sized businesses. With its 20kW capacity, this inverter offers an ideal balance of power and efficiency, making it perfect for a wide range of commercial applications.

Xantrex PROwatt SW 1000W 12V Pure Sine Wave Solar Inverter The PROwatt SW Series feature True Sine-Wave AC output with 900 continuous watts respectively. With high surge capability, the PROwatt SW Series provides the necessary current to startup demanding electrical loads such as variable speed power tools, advanced electrical appliances

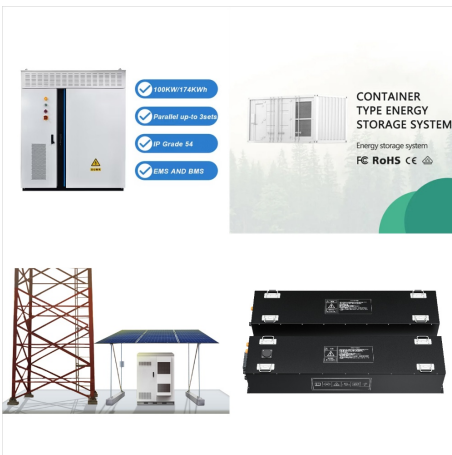

The Xantrex XW6048 by Schneider Electric is a hybrid Inverter with built-in charger. It will accept 44V DC to 64V DC from a solar array for charging batteries. It also accepts 120VAC and 240VAC for the charging circuit. It is typically wall mounted. The XW6048 includes a battery temperature sensor for temperature compensation.
