

What companies do you recommend for solar in Illinois?

Here are the top companies we recommend for solar in Illinois: We will never subcontract your installation to a third party. Our own well-trained, licensed electricians and installers will install your system carefully and in compliance with all safety codes and regulations. Certasun uses only the best solar panels on th...

Are solar panels a good investment in Illinois?

Those who opt for solar panels in Illinois tend to be more forward-thinking, looking to the future as solar panels last for several decades with proper maintenance. While others look anxiously at their next energy bill, you'll be able to relax with the knowledge that your investment in solar power removes such a weight from your shoulders.

Who are the best solar companies in Illinois?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Illinois are All Energy Solar, RxSun, SunSent Solar, Eagle Point Solar, and Greenlink Energy Solutions. How many solar companies are in Illinois? Should you choose a local or national solar installer? Who are the best solar companies near you?

Are solar loans a good idea in Illinois?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Illinois, rather than a leasing company retaining them.

Is Sunrun a good solar company in Illinois?

Sunrun is another big name you'll likely come across when researching solar leases in Illinois. Sunrun doesn't have a great reputation among customers or solar industry pros, so we don't recommend doing business with this company. What are the best solar companies for zero-down solar loans in Illinois?

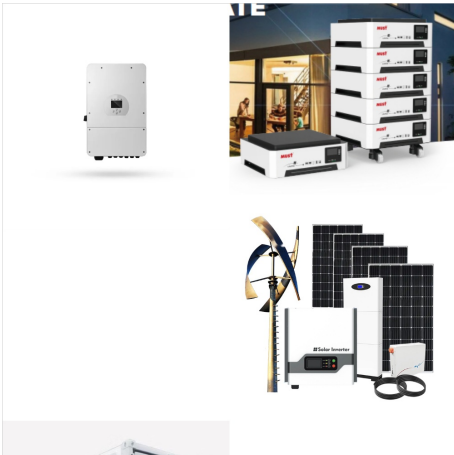

Are solar incentives a good idea in Illinois?

Solar incentives and rebates can cut the cost of installing solar in Illinois by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they
