

Does Delaware have a solar energy program?

In Delaware, residents can claim up to 50% of installation on photovoltaic, solar water heating, and other renewable energy technologies through the state's Green Energy Program. Unfortunately, not all states encourage residential solar deployment.

How many solar installers are there in Delaware?

The Solar Energy Industries Association (SEIA) reports that there are 26 solar installation companies that serve Delaware. If you're considering converting to renewable energy in the First State, you'll want to be sure to choose a Delaware solar installer that fits into your budget and can provide the system you need for long-term savings.

Are solar panels affordable in Delaware?

In Delaware, the cost of installing solar panels is affordable due to utility incentives. However, it's important to note that Delaware does not receive as much sunlight as other states, so a solar system will produce less energy here than in sunnier areas.

Who are the best solar companies in Delaware?
