

Which is the best solar company in Syracuse?

The best solar company in Syracuse is Paradise Energy Solutions, with a rating of 4.90 stars.

How much does solar cost in Syracuse, NY?

The average price per watt of solar power in Syracuse, NY is \$3.17. Before incentives, the final cost for a 10.28 kW system is \$22,820. After the federal solar tax credit, the price drops by 30%.

Can solar power help save money in Syracuse?

In Syracuse, where monthly electric bills are high, you could potentially save around \$900 a year with solar power. However, the average household in Syracuse doesn't use much energy, so their savings on power bills might not be significant.

Which is the best solar installer in central NY?

APS is a long-standing solar installer in Central NY with over 15 years of experience. SunPower is also a top choice, being the number one rated solar company with over 37 years of dedicated solar experience. Both APS and SunPower are locally owned and operated, with APS's owner being a certified Trainer and Adjunct Professor of PV Installations at HVCC.

How do I know if a New York solar company is good?

When evaluating New York solar companies, we consider the following criteria: Brand reputation and certifications (20%). We take each company's Better Business Bureau (BBB) score into consideration, as well as how long the installer has been in business (at least 5 years is required, 10 preferred), and what type of solar certifications it holds.
